RE: Reissuance of VPDES Permit No. VA0059072
Skippers OSB Plant, 234 Forest Drive, Skippers

Dear Mr. Summers:

Your VPDES permit is attached. As indicated in the fact sheet, the permit has changed; please read the permit carefully because you are responsible for meeting all permit conditions. A hard copy Discharge Monitoring Report (DMR) is not enclosed; however, an electronic DMR is available through e-DMR. Effluent monitoring to be reported on the DMR in accordance with this permit for the first monthly monitoring period, October 1 through October 31, 2013 is due November 10, 2013; for the first quarterly monitoring period, October 1 through December 31, 2013 is due January 10, 2014; and for the first annual monitoring period, January 1, 2014 through December 1, 2014 is due January 10, 2015. The Annual Fuel Recovery Report to be reported in accordance with the permit for the first annual monitoring period, January 1 through December 31, 2014 is due January 10, 2015. The evaluation report of the contaminated spring discharge associated with the French Drain is due March 15, 2014 (within 180 days of permit reissuance) in accordance with Part I.D.8 of the permit. The Annual Fuel Recovery Report, the Compliance Schedule reports associated with the new Total Recoverable Zinc limitation, and the French Drain evaluation report are to be submitted separately from DMRs and are not to be uploaded as attachments via e-DMR. If you still have DMR data to report as required by the previous permit please submit it as an attachment to the first DMR required by this permit. Monitoring results on the DMRs should be reported to the same significant digits as are included in the permit for each parameter.

As provided by Rule 2A:2 of the Supreme Court of Virginia, you have thirty days from the date of service (the date you actually received this decision or the date it was mailed to you, whichever occurred first) within which to appeal this decision by filing a notice of appeal in accordance with the Rules of the Supreme Court of Virginia with the Director, Virginia Department of Environmental Quality. In the event that this decision is served on you by mail, three days are added to that period.

Alternatively, any owner under §§ 62.1-44.16, 62.1-44.17, and 62.1-44.19 of the State Water Control Law aggrieved by any action of the State Water Control Board taken without a formal hearing, or by inaction of the Board, may demand in writing a formal hearing of such owner's grievance, provided a petition requesting such hearing is filed with the Board. Said petition must meet the requirements set forth in 9 VAC 25-230-130.B (Procedural Rule No. 1 – Petition for formal hearing). In cases involving actions of the

Board, such petition must be filed within thirty days after notice of such action is mailed to such owner by certified mail.

If you have any questions about the permit, please contact Brad Ricks at (804) 527-5129 or bradford.ricks@deq.virginia.gov.

Sincerely,

Emilee C. Adamson
VPDES Permit Manager
